Phil,

Please find attached a copy of the laboratory report for the weekly effluent WPDES compliance sample collected at the Penta Wood site on 11/4/2014. The data indicates the system is treating and discharging water in accordance with the permit requirements.

We will continue to monitor the system closely and expedite analyses for the next couple of weeks until we feel confident that we have demonstrated the system modification was successful and will continue to treat and discharge water in accordance with the permit requirements. Compliance samples were collected on 11/11/2014 with analytical results expected by 11/19/2014.

Please update USEPA.

Regards,

---
