Wastewater Discharge Monitoring Short Report

Footnotes (DNR Use Only; Instructions for completing this form that are unique for your facility may be displayed here.)

General Remarks

Laboratory Quality Control Comments

The concentrations reported for arsenic and copper were noted with a "B" qualifier by the laboratory, indicating that the compound was found in the blank and sample. The concentrations reported for arsenic, copper, and zinc were noted with "J" qualifiers by the laboratory and were less than the respective LOQs but greater than the respective LODs, indicating that the concentrations are approximate values.
