Subject: New Determination Regarding Investigation of Contamination
No Additional Action Required
Race Property – WI DOT
584 E Frontage Rd, Little Suamico Tn, WI
WDNR BRRTS # 02-43-000562

Dear Mr. Wagner:

On March 23, 1994, notification was sent to the Wisconsin Department of Natural Resources (“WDNR” or “the Department”), on behalf of Marie Race (the owner and responsible party at that time), that diesel range organics (DRO) contamination had been detected at the site listed above. Based on the information that was initially submitted to the WDNR, a letter was sent to the owner/responsible party at that time, on August 12, 1994, explaining the obligations for restoring the environment at the referenced site under s. 292.11, Wisconsin Statutes.

This second letter is being sent to notify you, as the current property owner, that based on an evaluation of all the information that is now available to the Department, you are not required to conduct an NR 716 site investigation for the site described above. The results of a soil sample taken on August 21, 2015, testing for DRO came back at <0.92PPM, resulting in this determination that no additional action is required.

The Bureau for Remediation and Redevelopment Tracking System (“BRRTS”) will now show the status of the site described above as a “no action required” site. As part of this action, we assign the site a new identification number in our tracking system. PLEASE NOTE: Using the new BRRTS identification number, (09-43-000562), you may view the information related to your site at any time (<http://dnr.wi.gov/topic/Brownfields/clean.html>) and use the feedback system to alert us to any errors in the data.

If you want a more detailed written response from the Department regarding the “no action required” status, please be advised that under NR 749, Wis. Adm. Code, a \$700.00 fee is required for the general liability clarification letter.

Further correspondence regarding this site should be sent to:

Alex Edler
Remediation and Redevelopment Program
Wisconsin Department of Natural Resources
