Dear Mr. Amungwafor:

Based on our phone conversation on July 7, 2004, you indicated that you were in agreement that the site investigation was complete and that a remedial option report should be completed and submitted for your review. In order to maintain eligibility in the Dry Cleaner Environmental Response Fund (DERF), NR 169.11 requires that the Site Investigation Report (SIR) be approved by the Wisconsin Department of Natural Resources (WDNR). The WDNR is also to classify the site to determine when reimbursement will be available (NR 169.13). To ensure eligibility, on behalf of the client, we request documentation of your approval of the SIR at your earliest convenience.

Please call me at (262) 549-6898 ext. 431 if you have any question.

Sincerely,
SHAW ENVIRONMENTAL & INFRASTRUCTURE, INC.
