Dear Mr. Hofland:

Subject: Lime Kiln Park

I reviewed our case file prior to the department's pilot program payment to the Village. I have identified some items that I need to have:

- Submit a report detailing construction of the additional downgradient well MW7B and an evaluation as to how/if this well completes the investigation.
- Your consultant has not delivered their promised report for March, 2001 of results and analysis of the first year's quarterly NA monitoring.
- Submit monitoring data for the last quarter of 2000, or any data from 2001. Submittals so far only consist of lab data sheets, except for one table. In future submittals, please include basic site information such maps and tables etc.

If you have any questions about this letter, please call me at 414-229-0850.

Sincerely,

John Feeney
