OFFICE OF THE  
SECRETARY

Anthony S. Earl

April 16, 1985

Mr. George H. McDonald, President  
Freeman Chemical Corporation  
Post Office Box 247  
Port Washington, Wisconsin 53074

Dear Mr. McDonald:

Thank you for your letter and the attached press release regarding the Freeman Chemical Corporation's plans to build a hazardous waste disposal incinerator. I appreciate being informed of your company's plans.

As you know, I have been concerned for some time that the state does not have a licensed hazardous waste disposal facility. I had discussed at one point the possibility of the state building such a facility. I share your concern for the need to reduce whenever possible the volume of hazardous waste which we landfill. To that end, I support your efforts to build a state of the art incinerator. By copy of this letter I am asking Lt. Gov. James Flynn, Secretary of the Department of Development, and C. D. Besadny, Secretary of the Department of Natural Resources, to make sure that the Freeman Chemical Corporation continues to receive the full cooperation of the state in a prompt fashion.

Once again, thank you for notifying me of your plans. If you or your staff should have any additional questions, please contact Bob Bartlett of my staff, who assists me in these matters.

Best wishes.

Sincerely,

ANTHONY S. EARL
