BUREAU OF SOLID -  
HAZARDOUS WASTE MANAGEMENT

Mr. Russ Cerk  
Freeman Chemical Corporation  
217 Freeman Drive  
Port Washington, WI 53074

SUBJECT: Financial Responsibility - Freeman Chemical Corporation  
WID980615439

Dear Mr. Cerk:

Our most recent assessment of the closure cost for Freeman Chemical Corporation's hazardous waste treatment and storage facility referenced above is \$111,812.58. You currently have on file with the Department a letter of credit for closure in the amount of \$108,662. You must update your proof mechanism to reflect the adjusted closure cost estimate 30 days prior to your anniversary date of November 24, 1989. It should be submitted to Pam Mylotta, Southeast District Office of the DNR in accordance with NR 181.42(10), Wis. Adm. Code.

When updating the closure costs for your facility, you are responsible for assuring your closure plan is adequate and closure cost estimates are accurate. The closure plan and cost estimates must reflect current conditions at your facility. Failure to provide accurate closure cost estimates violates s. NR 181.42(10), Wis. Adm. Code.

In addition to financial responsibility for closure, you must demonstrate liability coverage for sudden accidental occurrences as specified in s. NR 181.42(11), Wis. Adm. Code. In the past you have demonstrated the required coverage through the use of a financial test and guarantee from Georgia Gulf Corporation. You must submit an updated financial test from Georgia Gulf Corporation within 90 days after the close of their fiscal year.

If you plan to change your proof mechanism for closure or liability coverage, or if you have any questions, please contact Colleen Hellenbrand at (608) 267-7515.

Sincerely,

Barbara J. Zellmer, Chief  
Hazardous Waste Management Section  
Bureau of Solid & Hazardous Waste Management
