Subject: Financial Responsibility - Corrective Action
Cook Composites and Polymers Co.
WID 980615439

Dear Mr. Gromacki:

We received your February 25, 1998 letter which contained an updated corrective action cost estimate for the Cook Composites and Polymers Co. (CCP) hazardous waste facility located at 340 Railroad Street in Saukville, Wisconsin. We have reviewed the cost estimate, and found it to be acceptable.

The revised cost estimate is in the amount of \$75,000. CCP currently has on file with the Department Letter of Credit for Corrective Action No. IC70446 issued by Societe Generale in the amount of \$149,000. Since the amount of the cost estimate is less than the current letter of credit, the Department hereby authorizes you to reduce the amount of the letter of credit to \$75,000.

If you have any questions regarding this matter, please contact Colleen Hellenbrand at 608-267-7515.

Sincerely,

Dennis Mack, P.E., Chief
