Linda:

Thanks for your message. The recent letter that Milwaukee Plating submitted to the WDNR provided a summary of the information for the soil gas and outdoor air sampling performed by Milwaukee Plating. The activities that Milwaukee Plating is performing with regard to a resolution of the vapor issue in the 422 building were also included in this letter. Based on a conversation you had with my colleague, Jim Drought, the DHS is or will be performing additional sampling, and Milwaukee Plating is evaluating solutions. At this time Milwaukee Plating is not requesting a written response to the letter from the Department. When I submitted the semi-annual reporting form my reference to feedback was to verbal communications in response to additional information that was available.

Sorry for the confusion.

Have a great weekend!

Hi Kevin,

I was notified that you submitted an NR 700 report for Milwaukee Plating. You stated that you are waiting for DNR feedback. Have you submitted the review fee? I don't think that we have received that yet.

Thank you,
Linda

We are committed to service excellence.
Visit our survey at <http://dnr.wi.gov/customerurvey> to evaluate how I did.

Subject: WDNR NR700 Semi-Annual Report Confirmation

Thank you for submitting your NR700 semi-annual progress report. The DNR Project Manager for this site has been notified of your report submittal. If final case closure has not been granted for this Activity before the next reporting period, you will receive a system-generated email reminder and link to report for the next period.

The contents of your report is included below for your records:

Report ID: 220735320832189
BRRTS No.: 02-41-000826
PECFA No: --
Activity Name: MILWAUKEE PLATING
Address: 1434 N VEL R PHILLIPS AVE, MILWAUKEE Reporting Period: 1/1/2022 - 6/30/2022

Submitted On: 07/21/2022

Submitter Role: Consultant

Status: Site Investigation: Field Sampling/Monitoring

Comments:

On July 6, 2022, the Supplemental Soil Vapor and Outdoor Air Evaluation Report was submitted to the WDNR that presented information regarding additional investigation activities and results pertaining to sampling performed in the alley between the buildings. Milwaukee Plating is currently waiting to receive feedback on this report.
