Subject: Special Casing Recommendation - Refuse Hideaway LF

Dear Mr. Karn:

On February 17, 2009, the Department of Natural Resources (the Department) issued a 'Special Casing Recommendation' for a 1.5 acre property in the Town of Middleton. On April 1, 2009, you asked for a new 'Special Casing Recommendation'. The new 'Special Casing Recommendation' was requested because the location of the well was changed by more than 20' from the originally proposed location.

You have requested specifications for casing depth and drilling requirements for a well intended to serve two 1.5 acre lots located in the NE1/4 of the NW1/4 of Section 8, T7N, R8E, Town of Middleton, Dane County (see attached survey). You have proposed constructing a well that is approximately 320 feet deep with 260 feet of steel casing that is grouted in place with neat cement grout. The well will be on a property that falls within a designated Special Well Casing Area near the Refuse Hideaway Landfill. The Department will allow a well of this construction on the lot described in the attached survey.

Drilling a well of this construction does not guarantee acceptable water quality or quantity. The Department recommends sampling the well for volatile organic compounds (VOCs) about 3 weeks after it is placed into service and on an annual basis thereafter. I have included a list of laboratories capable of analyzing well water for VOCs. If you sample the well for VOCs the Department would like a copy of the results for our file.

Approval is hereby granted for the construction of a single well on the above-described property, but subject to the following conditions.

1. That the well shall be located within 50 feet of the location shown on the survey map provided to the Department
2. That the well is constructed with a minimum of 260 feet of grouted steel casing.
2. That the well shall be constructed in compliance with the requirements of Chapter NR 812 Wis. Adm. Code.
3. That in the event that the actual construction of the well on the above-described property has not commenced within 1 year of the date of this approval, the approval shall become void.

This approval is not intended nor should it be deemed as a guarantee that a well constructed to the specifications above will produce acceptable water quality or quantity.

Failure to comply with any term or conditions of this approval voids the approval. You are also responsible for acting in compliance with all other applicable statutory and administrative code requirements.

As authorized by Todd Ambs, Administrator, Division of Water.

NOTICE OF APPEAL RIGHTS

If you believe that you have a right to challenge this decision, you should know that Wisconsin statutes and administrative rules establish time periods within which requests to review Department decisions must be filed. For judicial review of a decision pursuant to sections 227.52 and 227.53, Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to file your petition with the appropriate circuit court and serve the petition on the Department. Such a petition for judicial review must name the Department of Natural Resources as the respondent.

To request a contested case hearing pursuant to section 227.42, Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to serve a petition for hearing on the Secretary of the Department of Natural Resources. The filing of a request for a contested case hearing is not a prerequisite for judicial review and does not extend the 30-day period for filing a petition for judicial review.

All hearing requests must be made in accordance with s. NR 2.05(2), Wis. Adm. Code, and must identify the grounds for the petition and the desired modification or change to the Order and include specific information demonstrating the following:

1. The substantial interest of the petitioner which is injured in fact or threatened with injury by Department action or inaction;
2. That there is no evidence of legislative intent that this interest is not to be protected;
3. That the injury to the petitioner is different in kind or degree from injury to the general public caused by Department action or inaction; and
4. That there is a dispute of material fact. (You must specify the disputed facts).

This notice is provided pursuant to section 227.48(2), Stats.

If you have any questions or concerns please feel free to contact me at the number listed below.

Sincerely,

Martin Nessman
