RE: Ripon FF/NN Landfill Private Well Sampling Results

Dear Dave and Chuck:

Enclosed please find copies of the letters sent to the residents and the laboratory analytical results from the private well sampling conducted at four wells adjacent to the FF/NN Landfill in Ripon, Wisconsin in April 1998.

The well water was tested for the presence of volatile organic compounds (VOCs). As you can see from the enclosed laboratory sheets, no VOCs other than acetone were detected in the water samples analyzed by National Environmental Testing, Inc. The acetone was also detected in the trip blank at a concentration of 11 ppb, confirming its laboratory artifact origin.

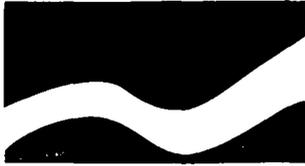

Should you have any questions concerning the water quality results, please feel free to call me at 414-792-1282.

Sincerely,

HSI GEOTRANS

Judy L. Fassbender, P.G.

RE: Results of Well Water Testing Conducted April 1998

Dear Mr. Gaastra:

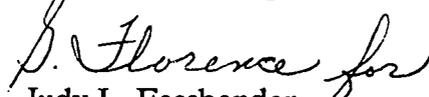

Water samples were collected from your home in April 1998 by HSI GeoTrans, Inc. and submitted for laboratory analysis. This testing was performed as part of the groundwater monitoring being conducted in cooperation with the Wisconsin Department of Natural Resources at the FF/NN Landfill in Ripon.

Your well water was tested for the presence of volatile organic compounds (VOCs). No VOCs other than acetone were detected in the water sample from your well. Acetone is a common laboratory contaminant and it was also found in the quality control samples indicating that the acetone was not present in the water from your well but was introduced in the sampling and analysis process. Therefore, it does not appear that the FF/NN Landfill or any other contaminant source has impacted your well with VOC contamination. A copy of the laboratory results is attached. Note that the "<" in the results column means that a compound was undetected.

Should you have any questions concerning your water quality results, please feel free to call me collect at 414-792-1282, or call Chuck Warzecha at the Wisconsin Division of Health at 608-267-3732.

Sincerely,

HSI GEOTRANS

RE: Results of Well Water Testing Conducted April 1998

Dear Mr. Miller:

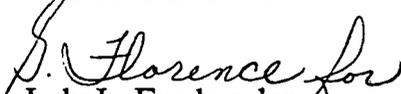

Water samples were collected from your home in April 1998 by HSI GeoTrans, Inc. and submitted for laboratory analysis. This testing was performed as part of the groundwater monitoring being conducted in cooperation with the Wisconsin Department of Natural Resources at the FF/NN Landfill in Ripon.

Your well water was tested for the presence of volatile organic compounds (VOCs). No VOCs other than acetone were detected in the water sample from your well. Acetone is a common laboratory contaminant and it was also found in the quality control samples indicating that the acetone was not present in the water from your well but was introduced in the sampling and analysis process. Therefore, it does not appear that the FF/NN Landfill or any other contaminant source has impacted your well with VOC contamination. A copy of the laboratory results is attached. Note that the "<" in the results column means that a compound was undetected.

Should you have any questions concerning your water quality results, please feel free to call me collect at 414-792-1282, or call Chuck Warzecha at the Wisconsin Division of Health at 608-267-3732.

Sincerely,

HSI GEOTRANS

RE: Results of Well Water Testing Conducted April 1998

Dear Mr. Baneck:

Water samples were collected from your home in April 1998 by HSI GeoTrans, Inc. and submitted for laboratory analysis. This testing was performed as part of the groundwater monitoring being conducted in cooperation with the Wisconsin Department of Natural Resources at the FF/NN Landfill in Ripon.

Your well water was tested for the presence of volatile organic compounds (VOCs). No VOCs were detected in the water sample from your well. Therefore, it does not appear that the FF/NN Landfill or any other contaminant source has impacted your well with VOC contamination. A copy of the laboratory results is attached. Note that the "<" in the results column means that a compound was undetected.

Should you have any questions concerning your water quality results, please feel free to call me collect at 414-792-1282, or call Chuck Warzecha at the Wisconsin Division of Health at 608-267-3732. Dave Carper is the project manager at the WDNR. He can provide you with information about the landfill and he can be reached at 608-267-6823.

Sincerely,

HSI GEOTRANS

Judy L. Fassbender
Senior Hydrogeologist
