RE: Water Supply Well Sample Results for W14297 Charles St Property, Ripon, WI

Dear Mr. Gaastra:

Pursuant to the Wisconsin Department of Natural Resources' (WDNR) requirement, Ashley Weimer from GeoTrans collected a water sample from your water supply well on February 26, 2010 for volatile organic compound (VOC) analysis. I am happy to report that no VOCs were detected.

If you have any further questions concerning the enclosed information, please call me at 748-4914, or call Gary Edelstein with the WDNR at 608-267-7563. Your cooperation in this matter is greatly appreciated.

Sincerely,

Steve Barg  
City Administrator  
City of Ripon

## **LABORATORY ANALYTICAL REPORTS**

On the following laboratory reports, the limit of detection (LOD) for each parameter is listed to the right of its name. The LOD is the minimum concentration of a parameter that must be present before the laboratory can detect it. The limit of quantitation (LOQ), which is listed to the right of the LOD, is the minimum concentration that can be quantified with certainty by the laboratory. The less than sign (<) by a result indicates the parameter analyzed was not detected above the LOD. The results for the VOC analyses are given in units of micrograms per liter (ug/L), which is equivalent to parts per billion.
