Richard Blamey
Vinyl Plastics, Inc.
3123 South 9th Street
Sheboygan, WI 53082-0451

Dear Mr. Blamey:

Subject: Case closure, phthalate release, Vinyl Plastics, Inc.,
Sheboygan, file reference FID #460041560 RR-ERP

Based on the investigative and remedial documentation provided to the department, it appears that the above-named site is in compliance with the requirements of chs. NR 700 to 724, Wis. Adm. Code. Therefore, the department considers the case closed, having determined that no further action is necessary at the site at this time. However, the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare or the environment.

Should construction work that disturbs or uncovers remaining contaminated soil occur in the future, any contaminated soils must be properly handled and disposed of, and the Department of Natural Resources must be informed.

Please have the monitoring wells at the site properly abandoned in accordance with ch. NR141. Have your consultant send the completed well abandonment forms to me.

Sincerely,

John Feeney
Hydrogeologist
