Dear Mr. Ackerman:

Seymour Environmental Services, Inc. reviewed your closure denial letter. Based on that letter we are requesting a change order for the following items:

- Sampling the existing monitoring well network twice and providing a letter report detailing the results.
- Additional sub slab sampling at the subject site and on the residential property located just north of the building. We have included the costs for a sub slab, soil vapor and 24-hour indoor air sample.
- Installation of a sub slab depressurization system with two drops for the current building.

Our cost request totals \$15,385.00. Please call me at 608-838-9120 if you have any questions or would like additional information.

Sincerely,
Seymour Environmental Services, Inc.
