KEY ENGINEERING GROUP, LTD.  
File No. 0808004

Dear Mr. Butz:

The purpose of this letter is to follow-up on our March 3, 1999 telephone conversation during which you indicated that you were intending to use Firststar as your PECFA lender (at least initially), and that you had forwarded Key Engineering Group, Ltd.'s (KEY's) first PECFA invoice to Firststar. Because it was KEY's understanding that you were intending to use the Bank of Mauston for the PECFA loan, KEY contacted Firststar to ensure that they are aware of your plans prior to commencing the field work (i.e. soil borings). Mr. Jerry Jones of Firststar indicated that he had received KEY's invoice; however, he had the understanding that you were using the Bank of Mauston.

Because Firststar is not aware that you intend to use them, KEY and Firststar request that you indicate this in writing to Firststar and KEY prior to commencing the field work and incurring significant additional costs.

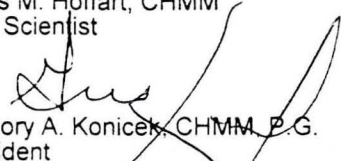

Please find enclosed an invoice for the non-PECFA services performed to date, which included applicable site research, *Site Investigation Work Plan* preparation and follow-up correspondence with the Wisconsin Department of Natural Resources.

Please call if you have any questions.

Sincerely,

KEY ENGINEERING GROUP, LTD.

  
Curtis M. Hoffart, CHMM  
Staff Scientist
