Hi Eric,

Thanks for the discussion last Friday. The first round of sub-slab vapor results for the redevelopment at the former Classic Cleaners on Monona Drive looks promising. DNR didn't want to decide on active vs. passive based on one round, so I recommended a 2nd sample round. You indicated to me in a phone message yesterday that you intend to do that 2nd round this month. As soon as you have the data back, please let me know so we can discuss.

Let me know if you or your client have any further questions.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Cindy Koepke, P.G.
