Dear Mr. Bence:

On 11/06/2002, the Wisconsin Department of Natural Resources (DNR) notified the Bence Family Limited Partnership of their responsibility to investigate and, as needed, clean up contamination located at the above-referenced property. As the current owner of this property, you have certain legal responsibilities, as outlined in Section 292.11(3), Wisconsin Stats., also known as the hazardous substances spills law. Section 292.11(3) states:

- **RESPONSIBILITY.** A person who possesses or controls a hazardous substance which is discharged or who causes the discharge of a hazardous substance shall take the actions necessary to restore the environment to the extent practicable and minimize the harmful effects from the discharge to the air, lands or waters of the State.

Our files indicate that we have not received any written correspondence or reporting from you since sending you a letter dated January 3, 2012 requesting a status update. In order to get this case back on track toward remediation of the existing contamination and ultimately, DNR case closure, please have your consultant prepare and submit documentation on the case status. If you do not have a consultant, please notify the DNR in writing within the next thirty days as to your intentions to submit the requested documentation. A lack of response to this letter may result in the initiation of formal enforcement actions. Please forward the requested updates, detailing the current status of the case, and all future correspondence to:
