IN REPLY REFER TO: 4400

November 19, 1980

Mr. Don Bloy
Wisconsin Chromium Corporation
County Tk. 00
Kaukauna, WI 54130

Dear Mr. Bloy:

On November 17, 1980, representatives from your company and the Department of Natural Resources met at the Department's Lake Michigan District Headquarters at Green Bay. We discussed clean-up procedures for the chromium spill at your Kaukauna plant and agreed that the following measures would be taken:

- (1) Your firm will immediately begin pumping and treating contaminated water from puddles and wetlands adjacent to your plant.
- (2) Your firm will hire a suitable consultant to test soils under the direction of the Department's Hazardous Waste Specialist.
- (3) Based on the information provided by the soil consultant, representatives of your firm and the Department will meet to discuss what other corrective action may be necessary.

Please call me at 414-497-4054 if you are in need of additional information.

Sincerely,

George J. Kraft
Hazardous Waste Specialist
