**Subject:** RE: [EXT] RE: Tri-Chem Emerging Contaminant Evaluation and Case Closure

Mafizul,

The DNR agrees that additional groundwater sampling for 1,4 dioxane, hexavalent chromium, and PFAS as described in the "recommendations" section of the *Emerging Contaminant Investigation Summary Report*, dated February 3, 2022 is necessary prior to case closure. Please proceed with the sampling and let me know when the results are available.

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
