Subject: Hydraulic fluid release- Eau Claire
Attachments: 15871 pictures.pdf

Thomas,

On June 17, 2014 at 15:29 ET, Troy Shelly with Ruan Transportation contacted ERTS regarding a hydraulic fluid release that occurred at a customer location, Veritas Steel at 2800 Melby Road Eau Claire, WI 54703. It was reported that during a delivery a Ruan trailer (6725) hauling oxygen had a mechanical failure which caused a hydraulic line to become disconnected which released approximately 5 gallons of hydraulic fluid to the concrete parking area. No soils, drains or waterways were reported to have been impacted. The contractor scrapped up the impacted gravel and one drum of generated waste was taken with them for proper disposal.

Attached are pictures of the release. If you have any further questions please feel free to email me back. Thanks.

-Colin
