Subject: Approval for Consultant Selection, Scope of Work, and Bid Costs for site Investigation at Millers Liquor LLC, 2401 University Avenue, Madison, WI

Dear Ms. Miller:

On October 27, 2008, the Wisconsin Department of Natural Resources (Department) received your request to hire Seymour Environmental as your environmental consultant for the site investigation activities at the Miller's Liquor site. After careful review of the submitted proposals the Department is approving your request to hire Seymour Environmental for the site investigation activities at the Miller's Liquor site. The Scope of Work for the site investigation is also approved. However, a brief work plan describing the details of the site investigation will need to be submitted to the Department.

Cost approved for this scope of work is \$23,481.50.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Adm. Code, hazardous waste management and wastewater discharges.

Please be aware that this letter does not represent Department "certification" that any response actions taken at your property, such as site investigation, remedial action or case closure under the ch. NR 700 series, are "approved by the Department," as those terms are used in the "remediated property; purchaser liability" section of the hazardous substance discharge law, s. 292.11, Stats.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.

If you have any questions regarding the content of this letter, please contact me at (608) 275-3299.

Sincerely,

Dino Tsoris, P.G.
