The proposed work will include installation of a subslab mitigation system, evaluation of an existing sub-slab mitigation system, conducting sub-slab soil gas sampling at six buildings, and evaluating the construction of four other buildings for vapor intrusion risk.

Cost approved for this interim action is \$ 7,400 for consulting and \$ 8,200 for sub-contractors, for a total of \$ 15,600. The total cost approved to date for this site is \$ 39,081.50.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.
