Dear Sirs:

This is a follow up on a spill reported by phone. The spill was a one-time upset of a drum spilling at a maximum 10 gallons of toluene. It occurred at 5 a.m. on July 11, 1989.

The toluene was absorbed and cleaned up immediately after the spill. The material collected has been placed in a 55 gal. drum, and it will be sent for proper disposal.

Sincerely,

*Leonard O. Moore*  
Leonard O. Moore, Ph.D.
