Subject: RE: Status Update Letter Reviews

Danielle,

These cases should have been closed administratively a long time ago. I have tried to do this at least 4 times now, each time I think it is resolved they come back. Please close all of these cases. These were taken to enforcement, at that time we agreed that Murphy would investigate and identify areas of concern. The remaining cases where no significant contamination was identified (which these belong to) would be closed.

Here is the list that Janet sent out yesterday on the sites that never followed up after the "Christmas" Letter. I added Risk and PM.
