RE: **Request for Site Update**

Commerce # 53206-3021-02-A DNR BRRTS # 03-41-506431
Smith Property, 1102 W Atkinson Ave, Milwaukee

Dear Mr. Smith:

The Wisconsin Department of Commerce (Commerce) is requesting information regarding activities associated with petroleum contamination at the site referenced above. On August 26, 2003, the Department of Natural Resources (DNR) was notified of the release. The DNR letter detailing the legal requirements of the "Responsible Party" (RP Letter) to address the contamination was sent on September 11, 2003. The site and case file were transferred to Commerce on April 30, 2007, for regulatory oversight. The case file for the site contains no documentation that you are proceeding with investigation and remediation of this site.

Commerce requires that you submit any additional information and a plan to fulfill your responsibility to address the petroleum contamination. Under current regulations, many sites require little or no cleanup actions after adequate characterization and risk assessment are performed.

Within 30 days of the date of this letter, please inform Commerce in writing of your intentions to bring this case to closure. Be aware that periods of inactivity and non-compliance can affect PECFA eligibility (if applicable). More specifically, interest on your PECFA loan may be deemed ineligible if you do not respond to this request for information. In addition, Commerce can pursue enforcement actions if you do not respond to this request for information.

Your prompt attention to this request is appreciated. If you have any questions, please contact me in writing at the letterhead address or by telephone at (414) 357-4704.

Sincerely,

A handwritten signature in black ink that reads "Stephen D. Mueller". The signature is written in a cursive style and is positioned above the typed name.
