Hi John,

Per our call, no luck on the July 2003 report, but can keep looking. I did find a report dated April 2003 per the second item.

Hope this helps.

Nick

Hi All,

The DNR is in the process of converting our paper records to digital. While working on the Nemadji River release we found a couple of CDs that are corrupt and we cannot read them. We do not believe we have corresponding paper files.

This report below was submitted with the text in paper form and the appendices on a CD. The CD is corrupt and we cannot read it:
