SUBJECT: Extension of Deadline for Submitting a Site Investigation Work Plan
1404 S Webster Ave, Village of Allouez, Wisconsin
WDNR BRRTS #: 02-05-514372

Dear Mrs. Amundson:

A request for vapor intrusion (VI) investigation at properties adjacent to 1404 S Webster Ave (the site) was sent to you on January 14, 2020. In this letter, a site investigation workplan (SIWP) for the VI investigation was to be submitted by February 14, 2020. On February 7, 2020, the DNR was contacted by your attorney, Jodi Arndt Labs, requesting an extension.

The DNR is granting a 30-day extension, allowing until March 14, 2020 to submit an SIWP for the VI investigation. We understand that conversations are planned to be had with the Village of Allouez, and we look forward to being involved with any developments between you and the Village.

If you have any questions or comments, please feel free to contact me by phone at 920-662-5424 or by email to Josie.Schultz@Wisconsin.gov.

Sincerely,

Josie Schultz

Good Morning Lee,

Attached to this email is a letter granting you a 30-day extension to submitting a site investigation workplan (SIWP) for 1404 S Webster Ave. We are unable to grant a 60-day extension at this time due to the known acute risk associated with the chlorinated volatile organic compounds present on and off site.

Please contact me with any questions or concerns that may come forth as you speak with the Village of Allouez and develop the SIWP. I look forward to hearing from you soon!

Thank you,
Josie

We are committed to service excellence.

Subject: 1404 S. Webster Ave. / BRRTS #02-05-514372

Good Morning Josie,

It was a pleasure speaking with you this morning. I appreciate your taking the time to discuss the matter surrounding the chlorinated solvent issue at the 1404 S. Webster Avenue property owned by Lee and Mark Amundson. We understand and appreciate the Department's request for a vapor intrusion investigation at the subject property and surrounding properties. As we discussed, the Amundsons do not have the financial means to front the monies for the vapor intrusion investigative costs so we are looking at various options with respect to the property and possible funding sources for the investigative work requested by the Department. We understand from your January 14, 2020 letter that you were looking for a site investigation work plan by

February 14, 2020. We respectfully request an extension of time to submit such a work plan so we can explore further some options we have identified. We will be diligent in exploring our options so we would appreciate a 60-day extension of time. We appreciate your consideration of our request, along with your willingness to discuss the site and the options available to the Amundsons.

Thank you.

JODI ARNDT LABS

Attorney
