Subject: RE: Work Plan Timeline Extension Request for BRRTS No. 02-08-520157 (ERP) & 06-08-426946 (VPLE)

Jeanne,

The Department approves your request to delay the submittal of Site Investigation Work Plan until February 28, 2021 as requested in your November 11, 2020 email. I look forward to working with you on this case. Please contact me with any questions.

Kevin

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Work Plan Timeline Extension Request for BRRTS No. 02-08-520157 (ERP) & 06-08-426946 (VPLE)

Hi Kevin,

Thanks for taking the time to speak with us regarding the Former Mirro Plant No. 20 site in Chilton, Wisconsin (Site). As you are aware Ramboll US Consulting, Inc. (Ramboll) was recently retained by Newell Operating Company to assist them in addressing the concerns identified in your October 7, 2020 letter. Ramboll will be working with Hudson Green from Patriot Environmental Management, LLC to move the Site towards closure under the Voluntary Party Liability Exemption Program.

As a follow-up to our conversation, we would like to formally request an extension of the deadline for submittal of the Site Investigation Work Plan (Work Plan). Prior to submittal of the Work Plan, we plan to retain a licensed land surveyor to determine the exact locations of the property boundaries and prepare an updated base map for the Site. Concurrently with the site survey work, Ramboll will also evaluate the sediment/basement sumps/discharge conditions to aid in the development of an appropriate scope of work and next steps. We anticipate conducting the site survey and walkthrough in December 2020. As a result, we respectfully request your approval to modify the Work Plan submittal deadline to February 28, 2021. While our goal will be to submit the Work Plan as soon as possible, this extension we allow us adequate time to complete the initial site visit, review available

data regarding the Site and nearby BRRTS cases, and properly transition the Site from the prior consultant, SEH.

We appreciate your consideration of this request and look forward to working with you to achieve our common goal of case closure for this property. Please feel free to give us a call if you would like to discuss this matter further.

Regards,
Jeanne
