Marshfield Dental Building LLC. Dr. Todd A. Hehli 4607 Royal Drive Eau Claire, WI 54701

Subject: Monitoring Well Abandonment Update Request: 735 South Central Avenue, Marshfield

Dear Dr. Hehli:

The Department of Natural Resources (department) was notified August 1, 2018, that a monitoring well installed for investigating groundwater contamination at 701 South Central Avenue, Marshfield had been lost due to construction activity at your property. The department and representatives of the 701 South Central Avenue site were told that the two monitoring wells impacted by the construction at 735 South Central Avenue would be preserved. Based on a July 19, 2018 site visit, one of the two wells has been covered with concrete along the east side of your building. The remaining monitoring well appears to have been preserved within what I presume to be the new building's entrance. I have attached the construction plan the department received from Cedar Corporation showing the location of the monitoring wells that were to be adjusted during construction for your reference.

Wisconsin Administrative Code § NR 141.25 requires that groundwater monitoring well no longer in use be abandoned within 60 days after its use has been discontinued. Please notify the department by September 17, 2018 if you intend to abandon the monitoring well in accordance with Wis. Admin. Code § NR 141.25.

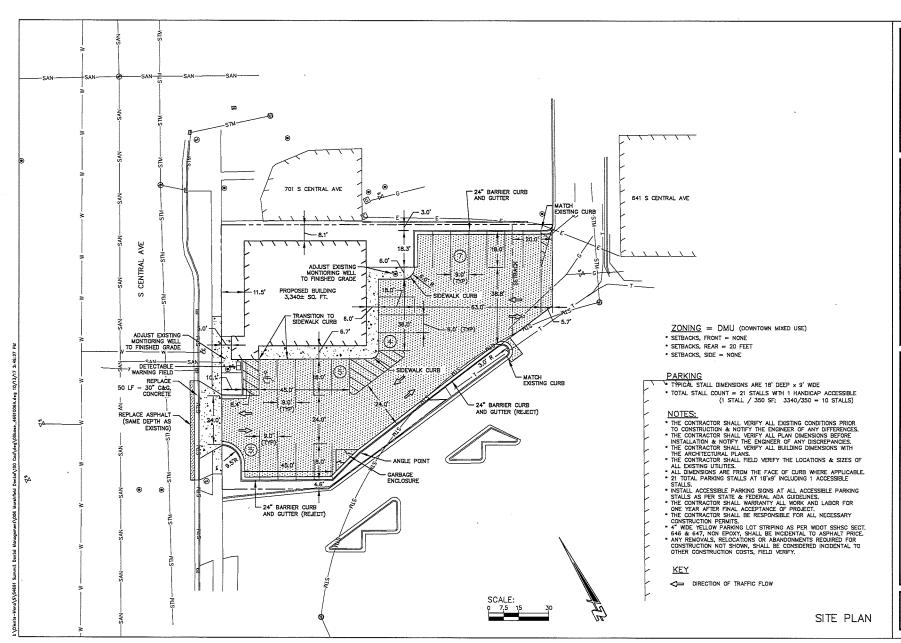

Thank you for your support in resolving this matter.

Sincerely,

Matt Thompson Hydrogeologist
