Attachments: 2021 Site Visit DERF Cost Approval Request.pdf

Hello Tim, attached is the cost approval request to complete the site visit and historical review scopes. The historical review scope is specific to the three (3) reports you forwarded to REI last Friday. REI will review the reports and update any summary tables and site figures based on the data enclosed in the reports. The site visit is specific to two (2) REI staff meeting you onsite on May 19th at 10:00 am to inspect the site, walk the entirety of the investigation area, discuss REI concerns and also develop a more concise plan to move this investigation forward.

This site have numerous logistical and technical challenges that should be addressed and managed to allow this site to move forward. REI would like, if possible, to install and operate an active remedial system at this site before the end of 2021.

If you have any questions or concerns, please do not hesitate to reach out to me to discuss.

Thanks again for taking on the regulatory role in this project. This one should be interesting.

Thank you,
David N. Larsen P.G.
Senior Hydrogeologist / Professional Geologist
