Tim, please find the attached change order requests. The first change order is specific to TO-15 analysis of the exhaust stack samples from the remedial systems. The previous methodology was not producing consistently accurate responses and resulted in low confidence of that method. Additionally, the work order includes a subcontractor charge for a private utility locate beneath the concrete floor of the facility where the extraction well borings are to be placed.

The second attachment is a credit request for prior approved charges. These charges are specific to the laboratory analysis of the previous method for collecting the remedial system exhaust samples, and the pump required to collect the samples. Additionally, REI included a credit request of the MIP scope, as we are no longer proposing to perform that scope. Please let me know if you have any questions or concerns.

Thank you,
David N. Larsen P.G.
Senior Hydrogeologist / Professional Geologist

The image shows a business card for REI (Civil & Environmental Engineering, Surveying). The card is green and white. It features the REI logo, which includes a globe and the letters 'REI'. Below the logo, it lists the company name and address: 4080 N. 20th Avenue, Wausau, WI 54401, and the website REIengineering.com. To the right of the logo, there is contact information for David N. Larsen, P.G., Senior Hydrogeologist, including his email address (Dlarsen@REIengineering.com) and phone numbers: Tel: 1-877-734-7745 / 715-675-9784, Cell: 715-551-3434, and Fax: 715-675-4060. At the bottom of the card, there are four small icons: a head, a surveying instrument, a leaf, and a water tap.
