Re: Moss-American Site, Milwaukee Wisconsin
LMR Reach 2/3 Remediation
Sediment Disposal Report

Gentlemen:

Between October 20 and December 14, 2004, Kerr-McGee Chemical LLC (KMC) shipped 16,254 tons of sediment to Peoria Disposal Company's (PDC) subtitle C landfill in Peoria, Illinois for final disposal. This work was performed pursuant to approval by WDNR (letter attached). A Certificate of Disposal from PDC is attached which certifies the receipt and disposal of this River Channel Remediation Waste in their Subtitle C landfill. Their Certificate includes a spreadsheet covering dates, manifest number and load weight for each of the 670 loads.

Our agreement with WDNR was to handle this non-hazardous material "as-if" it were hazardous. The loads were manifested on standard Illinois manifests provided by PDC, with the one change that the reference to "hazardous" in the Hazardous waste manifest was marked out. Each load was carried by hazardous waste haulers provided by PDC. Each truck was cleaned and tarped prior to leaving the Moss-American site.

After disposal, PDC completed and shipped to KMC each completed waste manifest. I have copied these manifests to Adobe pdf files, by date landfilled, and the manifests are included in the attached CD-ROM. Note that in most, but not all cases, the date a truck was loaded in Milwaukee is the date the truck was processed in Peoria. Some trucks had to wait overnight at the landfill to be processed the next day.

Of the 670 loads, all but one were processed without any problems. As previously reported to you, one of the trucks was involved in an accident about 25 miles from Peoria. The trailer was

Mr. Russell Hart and Mr. Thomas Wentland
February 4, 2005
Page 2

damaged and the load had to be transferred to other haulers. Two smaller trucks hauled 6.71 and 9.13 tons of sediment to PDC, while the remainder, approximately 8.9 tons, was placed in an empty haul truck headed for Milwaukee. This truck was topped off with sediment from the sediment pile and traveled to PDC without incident.

If you have any questions or comments please call me at 405/270-3747.

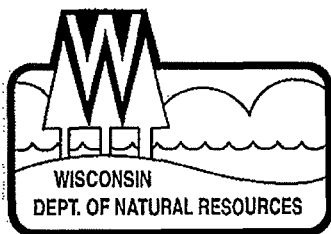

Sincerely,

A. Keith Watson
Project Manager

Subject: Waste Determination

Dear Mr. Bock:

Under the provisions of ch. NR 615.06, Wis. Adm. Code, a person who generates a solid waste must determine if that waste meets the definition of a hazardous waste. Kerr McGee, as the generator of contaminated soils and sediments at the Moss American Superfund site, is responsible for making the waste determination on these materials.

On November 5, 2002 Kerr McGee made an initial waste determination and then provided supplemental information on July 25, 2003 based on comments provided by the Department. There have been numerous conference calls since that time to discuss and evaluate options for properly managing the contaminated soils and sediments. As part of those discussions, Kerr McGee ultimately decided to manage the material as if it were a hazardous waste, even though your waste determination concluded that the media was not a hazardous waste. This would result in the off-site management of the material in an approved RCRA Subtitle C facility.

The Department has reviewed the information provided by Kerr McGee and evaluated your conclusion that insufficient information exists to conclusively determine that the material is contaminated with a listed hazardous waste. Assuming that the information you provided is accurate and given your willingness to manage the material as if it were a hazardous waste, the Department does not intend to challenge the waste determination made by Kerr McGee.

If you have questions regarding this letter, please do not hesitate to contact me at 608-266-7278.

Sincerely,

Mark E. Gordon, P.E., Chief
Policy and Technical Resources Section

Re: Certificate of Disposal for second phase of the LMR project

Dear Keith:

Per your request, I have attached the Certificate of Disposal for the second phase of the Little Menomonee River (LMR) project. Peoria Disposal Company (PDC) accepted 16,254 tons of waste from Kerr-McGee from October 20, 2004, through December 14, 2004. On behalf of everyone at PDC, we greatly appreciated the opportunity to serve your environmental needs with this project.

If you should have any questions about the Certificate of Disposal, please do not hesitate to give me a call at (309) 688-0760.

Sincerely,

PEORIA DISPOSAL COMPANY
Christopher R. Coulter
Director of Sales-Business Development

Certificate of Disposal

Receiving Facility: Peoria Disposal Company #1
RCRA Subtitle C Landfill
4349 Southport Road
Peoria, Illinois 61615
USEPA ID: ILD000805812
IEPA ID: 1438120003

Waste Generator: Kerr-McGee Chemical, LLC.

Waste Name: River Channel Remediation Waste.

Project Location: ¼ mile west of Heather Street and 91st Street
Milwaukee, WI 53224

The above captioned waste disposal facility hereby certifies the receipt of waste shipments from the above captioned generator and location. The specific shipments included under this certification are those 670 that appear on the attached document entitled "PDC Certificate of Disposal Attachment, Kerr-McGee River Channel Remediation Project."

The waste material included as part of this certification was disposed in compliance with federal and Illinois regulations.
