

State of Wisconsin \ DEPARTMENT OF NATURAL RESOURCES

File

Anthony S. Earl
Secretary

August 25, 1978

BOX 7921
MADISON, WISCONSIN 53707

IN REPLY REFER TO: 3210-3

Mr. Corby Felsher
City Clerk
City of Sheboygan Falls
375 Buffalo Street
Sheboygan Falls, WI 53085

Dear Mr. Felsher:

Mr. Dick Filsinger of Donohue & Associates called Mr. Stan Kleinert of our staff on Wednesday concerning the Department's plan approval for the city's sewer construction project number 78047 dated January 20, 1978. Mr. Filsinger indicated that the City of Sheboygan Falls would be seeking bids by construction firms for this project in the near future and that the construction would take place in 1979.

The plan calls for the installation of a sewer across Tecumseh Products Company property where concentrations of PCBs were found this spring. On July 28, 1978 the Department issued Order No. 2A-78-1193 to the Tecumseh Products Company and the City of Sheboygan Falls which requires a study of this area to determine the concentrations of PCBs present and engineering plans for cleanup with a completion date not later than July 1, 1979.

The Department will require that PCB concentrations found in the path of the excavation for the sewer are properly handled, stored and disposed of in accordance with state and federal regulations. As an alternative to this procedure, the City of Sheboygan Falls could elect to choose an alternate route for the sewer which does not cross lands containing PCBs. If an alternate route is chosen, then the amended plan should be resubmitted to the Department for approval.

If you wish further information, Mr. Kleinert is prepared to discuss this matter with you. His telephone number is 608-266-7721.

Sincerely,
Division of Environmental Standards

Thomas A. Kroehn
Administrator

POLYCHLORINATED BIPHENYL (PCB) RESULTS

| <u>Sample</u> | <u>Aroclor</u> | <u>Concentration (PPM)</u> |
|---------------|----------------|----------------------------|
| D & A-1 | 1248 | 2,613 |
| D & A-2 | 1248 | 19.9 |
| D & A-3 | 1254 | 33.3 |
| D & A-4 | 1242 | 6,264 |
| D & A-5 | 1248 | 4.82 |
| D & A-6 | 1248 | 69.5 |
| D & A-7 | 1248 | 18.8 |
| D & A-8 | 1254 | 83.7 |
| | 1248 | 133.6 |
| D & A-9 | 1254 | 17.3 |
| | 1248 | 15.6 |
| D & A-10 | 1254 | 2.64 |
| | 1248 | 8.36 |
| D & A-11 | 1254 | 15.3 |
| | 1248 | 99.9 |
| D & A-12 | 1254 | 734.8 |
| | 1248 | 1,000.6 |
| C-1 | 1254 | 1.95 |
| C-2 | 1254 | 1,847 |
| C-3 | 1254 | 4.13 |
| C-8 | 1254 | 0.40 |
| C-9 | 1254 | 3.79 |

Note: Results for samples C-5, C-7, C-11 and C-12 have not been received. However, it has been determined that the PCB concentrations for these four samples is less than 0.40 ppm.
