Dear Mr. Nicklas and Mr. Baumgartner:

Thank you for your above referenced addendum to your Site Investigation Work Plan submitted by St. John Mittelhauser & Associates (SM&A). The proposed work includes sampling soils and groundwater west of your subject property to help assess the degree and extent of chlorinated volatile organic compound contamination.

The Department approves your addendum to your work plan. Please contact me 3 business days prior to any field work to allow me or a Department representative the opportunity to observe.

Thank you for your important work to address the environmental issues at this site. If you have any questions please contact me directly at 262-574-2182.

Sincerely,

Doug Cieslak
