Mr. Richard Klinke
4518 Monona Drive
Madison, WI 53716

SUBJECT: Approval for Consultant Selection for Klinke Cleaners, 2346 West St. Paul Avenue, Waukesha, WI FID# 268188910 BRRTS# 02-68-535535

Dear Mr. Klinke:

This letter serves as an approval of your consultant selection for the investigation at the subject property. According to your phone message, you have selected the firm RSV Engineering, Inc. from three submitted proposals. RSV Engineering will complete a site investigation by determining soil and groundwater conditions, and prepare a summary report.

Although RSV was not the lowest bidder, the recommended two-phase study including a Geoprobe soil investigation and an initial installation of three groundwater-monitoring wells and one piezometer, will be able to address the environmental concerns on the site. The Department approves of your selection and RSV Engineering can be authorized to begin the field work.

The Department appreciates the efforts you are taking to protect and restore the environment at this site. If you have any questions regarding this letter or the site in general, please contact me at the letterhead address or (262) 574-2145.

Sincerely,

James C. Delwiche, P.G.
Hydrogeologist
Bureau for Remediation & Redevelopment
