Subject: Change Order #1 Approval for Klinke Cleaners-Fox Run, 2346 W. St. Paul Ave.,
Waukesha

Dear Mr. Klinke:

The Wisconsin Department of Natural Resources (Department) received the *Change Order Proposal* from RSV Engineering, Inc. for the above-referenced case on September 8, 2006. The scope of work in this submittal includes additional soil sampling and installation of two off-site monitoring wells to delineate the extent of contamination. The cost approved for this submittal is \$10,868. The total site investigation cost approved to date for this site is \$27,591.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges. Please also be aware that this letter does not represent Department "certification" that any response actions taken at your property, such as site investigation, remedial action or case closure under the ch. NR 700 series, are "approved by the Department," as those terms are used in the "remediated property; purchaser liability" section of the hazardous substance discharge law, s. 292.11, Stats.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review. If you have any questions regarding the content of this letter, please call me at (262) 574-2140.

Sincerely,

Brenda H. Boyce, PG
Hydrogeologist
Bureau for Remediation & Redevelopment
