Bob,

We would consider the AOC to be the total area that is contaminated. This could be estimated as the area you already identified where soil contamination exceeds the RCL (the red circled area).

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

**Subject:** RE: Klinke Cleaners Fox Run - 02-68-535535

Is the AOC considered the entire area we are defining as the approximate extent of soil to groundwater RCL exceedances, or is the AOC the specific area where the excavated contaminated soils will be consolidated?

Thanks,

Bob
