Notification of the release occurred in 2004, approximately 15 years prior to our involvement on the site. In reviewing the historical documentation, we did not find any references to waterproofing at this location.

Thanks,

Bob

Bob,

The DNR has a question regarding the 'Emerging Contaminant Evaluation'. Could you confirm whether or not other services (such as waterproofing) were offered at the dry cleaning business, other than the actual solvent-based cleaning?

Thank you.
