documented at closure/other to verify or change answers to questions in #1. Discuss use of the maintenance plan or template.
4. With the site owner/RP (if possible), answer the following for DNR RR records:
Did the site owner know about the continuing obligation(s)?
Have site conditions changed since closure that would affect either a deed restriction or other restrictions or requirements associated with the site?
No Yes - Explain:

BRRTS Number: 02-41-542923

Examples: 1) a building has been razed and investigation and remediation occurred.

2) excavation or residential development has occurred in a restricted area.

BRRTS Number: 02-41-542923

Remediation & Redevelopment Continuing Obligation Review

Form 4400-232 (R 04/19) Page 3 of 8

Has a pavement (asphalt or concrete) cover, soil cover or other sort of cover, such as a building, been removed or is it in disrepair? No/NA ○ Yes - Should it be replaced or repaired? ○ Yes** If a performance standard was the final remedy, has it been altered? No Yes - Explain: Was the DNR notified? Yes O No Have local zoning changes occurred since closure? No/NA Yes – Does it appear to impact the effectiveness of the restriction? O No Yes - Describe: Is soil sampling needed to determine if the final remedy has been modified such that a direct contact threat exists? No Yes – Describe: For example, an asphalt cover has been removed or is in disrepair, or a new contaminated site is present upgradient, etc. Has additional monitoring or remediation been done since the site was closed? No Yes – Describe: Does a new threat to public health or the environment exist (e.g. new sources or exposure routes)? Yes – Does sampling need to be performed? Yes** – Describe what should be done to address the problem, and by whom: Is the vapor mitigation system or sub-slab depressurization system (SSDS) operating as designed? (pressure gradient being maintained) Yes NA No** - Describe any follow up needed: Have any of the exposure assumptions used for closure changed at this site? \bigcirc NA No Yes - Describe any follow up needed: Has the land use at this site changed such that a vapor intrusion pathway may now exist? No Yes – Describe any follow up needed:

Remediation & Redevelopment BRRTS Number: 02-41-542923 **Continuing Obligation Review** Page 4 of 8

Form 4400-232 (R 04/19)

Has the land use changed such that there are either health or safety issues?	
No	
Notes:	
COMPLIANCE AND FOLLOW-UP SUMMARY:	
5. Identify compliance and any follow up needed.	
Is the site in compliance with the continuing obligations/closure approval document?	
Yes	
○ No – Describe what's not in compliance and the reasons for noncompliance:	
(May depend on extent of non-compliance, non-maintenance of remedy or changed ownership or conditions. If case is out of	
compliance, it should be prioritized by the region, for new casework or enforcement, as needed.)	
Has the maintenance agreement required at closure been followed?	
Yes	
○ NA	
○ No – Describe:	
Was the property owner reminded to complete and document the (yearly) inspections?	
Yes	
○ NA ○ No – Why not?	
O No – Willy flot?	
Was a maintenance plan or template provided to the property owner at the site visit?	
○ Yes	
○ NA	
No – If no, why not?	
The DNR did not meet with the property owner due to the COVID-19 pandemic. However, the DNR email	led
the property owner a link to BRRTS on the web and directed them to the maintenance plan/inspection log.	
6 ** Are additional actions by the BB property owner warranted at the site? The intent is to return the site to compliance	
6.** Are additional actions by the RP property owner warranted at the site? The intent is to return the site to compliance with continuing obligation. If a significant land use change has occurred, and/or further remedial action is needed,	
determine if the site meets the NR 726 reopening criteria.)	
○ No	
 Yes – Summarize the actions needed to return the site to compliance and identify who is responsible: 	
During the 2021 CO Audit, the DNR identified a monitoring well at the site that appeared to not have been	n
abandoned due to an exposed monitoring well cap (see attached photos). The CO packet presented in	
BRRTS includes a monitoring well abandonment form for this well, which the DNR understands is MW-1	l.
However, this monitoring well did not appear to be abandoned during the 2021 CO Audit. Therefore, the property owner must hire an environmental consultant to verify that the monitoring wells at this site were	
abandoned and provide applicable documentation to the DNR. If this monitoring well and other monitoring	ıg

Page 5 of 8

wells at this closed site are found to not have been properly abandoned, then any applicable monitoring wells must be properly abandoned and the applicable documentation must be presented to the DNR.

NI		٠
N	NTDE	

Add AC 186 for RP/property owner follow-up required. Use AC 99 if a reminder was provided to the property owner to complete and document inspections.

. * Does the site require follow up by DNR?
○ No
Yes: contact or enforcement to return site to compliance with continuing obligation
updating BRRTS for the CO PDF (adding or modifying a packet)
reopen site (add ACs 186, 12 and 13)
other: Monitoring well abandonment verification must be submitted to DNR, as applicable.

- 8. * Attach photographs of the site, documenting site conditions. Label the photos with the site name/BRRTS Activity number/date/view. If a follow-up letter is sent, include a copy with the audit. (audit/photos/follow-up letter)
- 9. * Save a copy of the audit using the following naming convention:
 YYYYMMDD 185 CO Audit.pdf. For follow-up documentation use YYYYMMDD 186 Follow Up Needed.pdf.
- 10. Update applicable BRRTS action codes on the Table on page 1. Use the regional tracking sheet, and have your Regional EPA update the ACs and upload the audit PDF into BRRTS.
- 11. Notify Central Office when the audit has been completed and loaded into BRRTS.
