File Ref: 02-22-543001

Subject: Approval of Change Order Number 1
Former Highway Cleaners, 1509 Elm Street, Boscobel, Wisconsin
WDNR BRRTS Activity Number: 02-22-543001

Dear Mr. Witmer:

Your proposed change order #1 is approved. You may proceed with the proposed work. The DNR received the proposal titled "Modified Change Order, Dry Cleaner Site Investigation," prepared by Seymour Environmental and submitted on your behalf on December 14, 2006.

The change order is intended to continue to define the extent of groundwater contamination north of the former Highway Cleaners property. Included in the approved costs are the installation of 2 groundwater table observation wells and one piezometer. Two rounds of groundwater data will be collected and a report summarized site activities will be compiled.

Cost approved for this submittal is \$12,223. This does not include \$7,237 remaining from the earlier approved budget. The estimated total cost for this next phase of work is \$19,460. The total approved cost to date for this site investigation is \$40,573.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

Please be aware that this letter does not represent Department "certification" that any response actions taken at your property, such as site investigation, remedial action or case closure under the ch. NR 700 series, are "approved by the Department," as those terms are used in the "remediated property; purchaser liability" section of the hazardous substance discharge law, s. 292.11, Stats.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.

If you have any questions regarding the content of this letter, please call me at the number below.

Respectfully,

Linda Hanefeld
