Subject: Site Investigation Work Plan Approval for Jill's Dry Cleaners
S74 W16834 Janesville Road, Muskego, WI 53150
FID# 268077480, BRRTS# 02-68-543070

Dear Ms. Fitzgerald:

This letter serves as an approval of the Site Investigation Work Plan prepared by KPRG & Associates for the Jill's Dry Cleaner site in Muskego. The details of the work plan were outlined in the November, 2005 report. The work plan calls for an additional ten (10) six soil borings to define the local stratigraphy and the vertical and horizontal impacts of the soil contamination. Temporary geoprobe in addition to seven monitoring wells will be installed for the purpose of assessing groundwater quality, and horizontal and vertical flow. After reviewing the documentation from the proposed soil and groundwater sampling, if the extent and degree of contamination have not been determined, additional investigation maybe necessary. The work plan also calls for the preparation of a site investigation report to be submitted to the Department.

The Department will require a cost proposal prior to each additional work phase of the project. Remember to obtain three bids for sub-contractor work that will be completed on the project. The bids must be submitted when requesting reimbursement from the Dry Cleaner Environmental Response Fund program.

The Department appreciates the efforts you are taking to restore the environment at this site. If you have any questions regarding this letter or the site in general, please contact me at the letterhead address or (262) 574-2145.

Sincerely,

James C. Delwiche, P.G.
Hydrogeologist
Bureau for Remediation & Redevelopment
