Dear Ms. Fitzgerald:

This letter serves as an approval for the completion of the Site Investigation for the Jill's Dry Cleaner site in Muskego. The details of the site investigation activities completed are outlined in the report *Additional Site Investigation Addendum No. 1*, submitted by KPRG & Associates. The report calls for an additional year of quarterly groundwater monitoring, in addition to installing a foundation venting system for the building to address vapor intrusion pathways, upon completion of the site investigation process. Since these activities are involved with the site remedy process, they may now be implemented.

The Department appreciates the efforts you are taking to restore the environment at this site. If you have any questions regarding this letter or the site in general, please contact me at the letterhead address or (262) 574-2145.

Sincerely,

James C. Delwiche, P.G.
