Is the site on BRRTS as having residual contamination and continuing obligations?

- Yes

- No

If yes, are these properties listed in BRRTS with AC 66?

Notes:

Site Visit:

2. Contact the site owner for access. Provide a copy of the maintenance plan, if applicable. If the audit is being conducted for a CO which would now require a maintenance plan, provide a template version if no maintenance plan was required at closure, for the property owner's use (voluntary).
3. Walk the site (ideally with the owner or responsible party) to review the site conditions against the conditions documented at closure/other to verify or change answers to questions in #1. Discuss use of the maintenance plan or template.
4. With the site owner/RP (if possible), answer the following for DNR RR records:

Did the site owner know about the continuing obligation(s)? Yes No

Have site conditions changed since closure that would affect either a deed restriction or other restrictions or requirements associated with the site?

Is the vapor mitigation system or sub-slab depressurization system (SSDS) operating as designed? (pressure gradient being maintained)

Yes

NA

No** – Describe any follow up needed:

Have any of the exposure assumptions used for closure changed at this site?

NA

No

Yes – Describe any follow up needed:

Has the land use at this site changed such that a vapor intrusion pathway may now exist?

COMPLIANCE AND FOLLOW-UP SUMMARY:

5. Identify compliance and any follow up needed.

Is the site in compliance with the continuing obligations/closure approval document?

- Yes
- No – Describe what's not in compliance and the reasons for noncompliance:

(May depend on extent of non-compliance, non-maintenance of remedy or changed ownership or conditions. If case is out of compliance, it should be prioritized by the region, for new casework or enforcement, as needed.)

Has the maintenance agreement required at closure been followed?

- Yes
- NA
- No – Describe:

There has not been any annual maintenance forms submitted to the DNR since the case was closed even though the closure letter requires yearly submittal of the inspection form.

Was the property owner reminded to complete and document the (yearly) inspections?

- Yes
- NA
- No – Why not?

Was a maintenance plan or template provided to the property owner at the site visit?

- Yes
- NA
- No – If no, why not?

6. Are additional actions by the RP property owner warranted at the site? *The intent is to return the site to compliance with continuing obligation. If a significant land use change has occurred, and/or further remedial action is needed, determine if the site meets the NR 726 reopening criteria.***

- No
- Yes – Summarize the actions needed to return the site to compliance and identify who is responsible:

Notes:

I told him he could take a photo of the inspection form yearly and email it to me and I would post it to our database. There has not been any submitted to the DNR since the case was closed even though the closure letter requires yearly submittal of the inspection form.

Keith said that they use a sealant on the pavement every year and it was about in the same shape now as it was when the case was closed. He has been there 37 years. I gave him two copies of the GIS package, which includes the maintenance form and plan.

Add AC 186 for RP/property owner follow-up required. Use AC 99 if a reminder was provided to the property owner to complete and document inspections.

7. * Does the site require follow up by DNR?

No

Yes: contact or enforcement to return site to compliance with continuing obligation

updating BRRTS for the CO PDF (adding or modifying a packet)

reopen site (add ACs 186, 12 and 13)

other: _____

8. * Attach photographs of the site, documenting site conditions. Label the photos with the site name/BRRTS Activity number/date/view. If a follow-up letter is sent, include a copy with the audit. (audit/photos/follow-up letter)

9. * Save a copy of the audit using the following naming convention:

YYYYMMDD_185_CO_Audit.pdf. For follow-up documentation use YYYYMMDD_186_Follow_Up_Needed.pdf.

10. Update applicable BRRTS action codes on the Table on page 1. Use the regional tracking sheet, and have your Regional EPA update the ACs and upload the audit PDF into BRRTS.

11. Notify Central Office when the audit has been completed and loaded into BRRTS.
