Re: 6633-6639 West National Avenue / 1609-1623R South 66<sup>th</sup> Street  
Parcel 705 BRRTS #02-41-544080

Dear Ms. Stovall:

Pursuant to our recent telephone conversation concerning the above referenced site, The ENVIRONMENTAL MANAGEMENT COMPANY LLC (TEMCO) originally reported soil and groundwater contamination at the above referenced site to the Wisconsin Department of Natural Resources (WDNR) in the Fall of 2002 in the form of a Phase II Environmental Site Assessment (ESA) submitted with an application for Land Recycling Loan Program (LRLP) financing for site investigation and remediation. TEMCO may not have submitted a discharge notification form to you at that time.

Subsequently, TEMCO completed a Site Investigation and Remedial Action Plan for the site. The SI/RAP report was submitted to your attention on September 14, 2005. You subsequently issued a letter to the City of West Allis on September 26, 2005, instructing the City to retain an environmental consultant to conduct an environmental investigation of the site. The site investigation has been completed and is the subject of the report submitted to you on September 14, 2005.

TEMCO understands that WDNR responsibility for this site has been assigned to Mr. Andrew Boettcher. Please contact me if further information is needed. Thank you for your assistance.

Sincerely,

THE ENVIRONMENTAL MANAGEMENT COMPANY LLC

Jeffrey L. Hosler  
Principal  
Senior Hydrogeologist
