SUBJECT: Request for Status Update
Twin Lakes Laundry - 111 S Lake Ave, Twin Lakes, WI
FID # 230117910
WDNR BRRTS #02-30-545024

Dear Mr. Olsen,

On March 14, 2006 you were notified of your responsibility to investigate and, as needed, clean up contamination located at the subject property. As owner of this property you have certain legal responsibilities, as outlined in Section 292.11(3), Wisconsin Stats., also known as the hazardous substances spills law. Section 292.11(3) states:

- **RESPONSIBILITY.** A person who possesses or controls a hazardous substance which is discharged or who causes the discharge of a hazardous substance shall take the actions necessary to restore the environment to the extent practicable and minimize the harmful effects from the discharge to the air, lands or waters of the State.

Our files indicate that we have not received any written correspondence or reporting for this case since September 2010 where you identified that your facility has contaminated the local groundwater drinking water source. In order to get this case back on track toward remediation of the existing contamination and ultimately, DNR case closure, please have your consultant prepare and submit documentation on the status of this case. With your status update, please sample your groundwater monitoring wells and all potable wells previously tested and notify the occupants and the department in accordance with NR 716.14 Wis. Adm. Code within 10 days of receipt of the laboratory reports and with 60 days of this letter. If you do not have a consultant, please notify the department in writing within the next thirty days as to your intentions to submit the requested documentation. A lack of response to this letter may result in the initiation of formal enforcement actions.

Forward the requested updates, detailing the current status of the case, and all future correspondence to:
