**Subject:** Removal of restricted waste begins at Mirro  
**Date:** Tuesday, June 13, 2017 8:07:06 AM

---

Tauren:

Just a quick note to let you know Brandenburg began segregating/removing the restricted waste at Mirro. They completed removal of the Hg release area yesterday and are marking the PCB areas this morning. Our staff will remain onsite during this work to confirm/document delineation/segregation. NorthStar (who completed the restricted waste inventory) and Stantec will conduct a clearance inspection to confirm removal of the wastes prior to initiation of demolition activities.

I don't want to clog your inbox, but would you like for me to send you updates to keep you in the loop as milestones are reached? You can always watch on youtube (though can't see much action yet).

Sincerely,

**Harris Byers**
