**Date:** Wednesday, September 13, 2017 2:42:50 AM

---

Team:

Just a brief follow-up; the remedial contractor will resume removal of PCB-impacted concrete today and stagger 2-3 loads to be shipped Wednesday, Thursday, and Friday of this week. The contractor anticipates completing the removal by this Friday (Sept. 15).

Stantec will be onsite during removal to document the process and to collect soil samples from beneath the concrete. We anticipate receiving the lab data back from sampling at Area 8 by next Monday (Sept. 18) with subsequent samples anticipated on a 5-day turnaround by the laboratory.

Sincerely,

**Harris Byers**
