Subject: NR700 Semi-Annual Progress Report for the Former Mirro 9 Plant in Manitowoc, WI (BRRTS NO. 02-36-545108; FID 436033730)

Tauren, This email serves as a NR700 Semi-Annual progress report for the Former Mirro 9 plant in Manitowoc, Wisconsin for the reporting period of January 1 to June 30, 2020. No documents were submitted during the reporting period by Newell Operating Company (NOC). Ramboll on behalf of NOC was preparing the PFAS Groundwater Investigation Work Plan for the Former Mirro 9 Plant in Manitowoc, WI (BRRTS NO. 02-36-545108; FID 436033730) during this time period, which was subsequently submitted to the WDNR on July 17, 2020 via email. We have attempted to request the link be provided to Ramboll using the "Report ID Request Form" so in the future we can submit the Progress Report electronically when we are provided the link. Unfortunately when we entered the BRRTS number for the Mirro 9 Plant (multiple attempts), the form indicated semi-annual progress reporting is not required. See below for a screen shot of what we received. Thanks, Jeanne
