Subject: RE: Manitowoc Sites

Hi Gabriel,

The DNR will allow the 30 day extension to October 14, 2020 for the SIWP that addresses all contaminants of concern in all environmental media. The letter for the site investigation review requested by the City of Manitowoc that will be issued by the DNR soon will further outline additional investigation that is needed at the site.

For the Site Investigation Work Plan for PFAS in Groundwater that was submitted, a response for that will be provided by DNR separately from the site investigation review letter, since this plan was submitted by Newell.

Regards,

We are committed to service excellence.

I apologize for the confusion and not addressing this earlier. I will be checking in with the program regarding the extension and will hopefully have a response to you by the end of next week.

Thank you,
Andrea

CAUTION: External email.

Good afternoon Gabe,

Thank you for submitting a response on behalf of Newell Brands. The department will be in touch if there are any questions or concerns.

Have a nice weekend,

Andrea

Subject: Manitowoc Sites

Dear Ms. Gruen-

We have reviewed your letters dated August 14, 2020, summarizing the enforcement conferences.

Regarding Mirro 9, Newell intends to submit an additional SIWP that addresses all contaminants of concern in all environmental media. We have communicated with the City's attorneys and have requested certain databases from the City regarding the conditions at the site. However, we are requesting a 30-day extension of the deadline, to October 14, 2020.

Regarding Newton Gravel Pit, I met with the City's attorneys and we are close to finalizing our agreement resolving claims relating to costs for historic work. We also began discussing the possibility of an agreement relating to the cost of future work. I have also requested databases regarding this site.

Please let me know if you have any questions regarding the foregoing.

Gabe
