**Subject:** 02-36-545108 MIRRO PLT 9 (FORMER)–LGU: WDNR NR 700 Semi-Annual Reporting

Good morning Tauren,

This e-mail serves as Newell Operating Company's (NOC) NR 700 semi-annual progress report for the former Mirro Plant No. 9 (BRRTS No. 02-36-545108) in Manitowoc, Wisconsin for the reporting period of July 1 to December 31, 2023. Please note, Ramboll attempted to completed the reporting requirements via the WDNR provided notification e-mail; however, a report was already submitted. As such, the website link is no longer valid.

Ramboll, on behalf of NOC, completed the fourth (July 2023) quarter groundwater sampling event from the WDNR approved *Additional Site Investigation Work Plan*. The groundwater sampling results were received, and data transmittal letters were issued in September 2023. A *Polychlorinated Biphenyl Liability Clarification Request* was submitted to the WDNR in November 2023. Ramboll anticipates submitting the *Site Investigation Report Addendum* to the WDNR during the first quarter of 2024.
